**Address**
1180 rue Dollard, Longueuil

## Profile

I'm a third-year Computer Science student at Champlain College, focused on full stack development, IT and cybersecurity. I'm passionate about working in teams, which I've integrated through playing basketball and working in multiple group projects in school and my previous work experiences. I'm ambitious about my personal growth and have strong integrity, always ensuring my work is done with care and accountability.

# ELVIS RUBERWA

## Software Developer & IT Technician

## Projects

**Sept 2024 – Feb 2025**

### Billing Automation Project

- Development of a complete invoicing automation platform with authentication and authorization for an accounting consultancy serving small and medium enterprises
- The platform automates the generation of invoices based on project activities tracked over time and is supported in both English and French.
- Java, Spring Boot, MariaDB, React/Typescript, HTML, CSS, Jira, Agile, Scrum, CICD Pipeline

**Nov 2024**

### Pet Clinic Project

- Extended the Spring Boot Microservices Pet Clinic application, a learning platform for managing pet clinic operations such as appointments, patient records, and veterinary services.
- Contributed to backend and frontend development, implemented microservices, practiced TDD, and managed CI pipelines while collaborating with peers in an Agile and Scrum-based environment.
- Spring Boot, Docker, Java, React, Microservices architecture, Agile, Scrum, TDD, CI, Jira, MongoDB

**Sept 2024 – Oct 2024**

### Interactive Dashboard for Civision Company

- Designed and developed a responsive interactive dashboard for Civision company using React and Next.js, implementing data filtering, dynamic price display, and customizable charts.
- Integrated company branding by adding a logo and ensured mobile responsiveness with charts adapting to screen sizes for optimal usability.
- Leveraged Agile principles to manage the project timeline and deliverables, with a focus on clean code practices using ESLint and Prettier.
- React, Next.js, Responsive Design, Agile, Github, Chart.js, JavaScript, JSON

## Work Experience

**ZARA, Brossard**

June 2024 - Present

- Efficiently managed incoming products, ensuring accurate inventory records and streamlined operations
- Performed POS (Point Of Sales Transactions) and merchandising tasks such as receiving shipment, price markdowns and operations
- Provided responsive customer service

## Volunteering

**Tutoring at Champlain College**

September 2024 - December 2024

- Tutored students in IoT and Networking courses, offering hands-on guidance during lab and individual sessions.
- Addressed student questions, clarified complex concepts, and provided personalized support to reinforce understanding.
